## 3 raw materials

Sugar beet

Sugar cane

Cereals

## OUR OUTLETS

Sugar

Alcohol

Ethanol

Starch

By-products

Electrical power

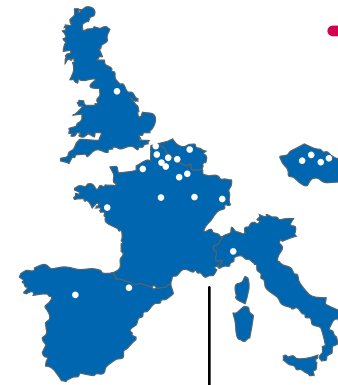

## Tereos, a global player in sugar, starch and alcohol

Tereos is a cooperative agro-industrial group specialised in the primary processing of sugar beet, sugar cane and cereals. Thanks to the commitment of some 12,000 French farmers and cooperative growers, joined by 40 000 cereals producers, Tereos has expanded its total production of sugar, starch and alcohol by a factor of 50 over the last 20 years. This growth has enabled Tereos to develop in line with increasingly international markets in its activities and commodity price volatility.

Tereos provides sustainable outlets for 1 million hectares of agricultural production through 35 industrial facilities across three continents: Europe, South America and Africa. Tereos has 17,000 permanent employees who work on producing and processing sugar beet, sugar cane and cereals and marketing a full range of sugar, starch, alcohol, bioethanol products, as well as by-products intended for animal feed and electrical power.

Thanks to its capacity for innovation, its expertise and its mastery of the techniques and markets involved, Tereos is now a global leader in the various sectors in which it operates. With its long-term vision for agriculture, Tereos harnesses the natural resources it transforms while reducing its environmental impact and providing its employees with a suitable working environment.
